

EDUCATION

Indian Institute Of Technology Palakkad

Ph.D. in Computer Science, Advisor: Dr. Krishnamoorthy Dinesh

– Research area: Boolean Circuit Complexity

Palakkad, Kerala

2022–Current

National Institute Of Technology Silchar

M.Tech in Computer Science and Engineering, GPA: 7.88

Silchar, Assam

2019–2021

Maulana Abul Kalam Azad University of Technology

B.Tech in Computer Science and Engineering, GPA: 7.26

Kolkata, West Bengal

2013–2017

RESEARCH INTERESTS

My primary research interests lie in theoretical computer science, particularly in Boolean circuit complexity and communication complexity. I am interested in understanding the limitations of Boolean circuits, including questions related to circuit lower bounds, separations between complexity classes, and how circuit depth and size affect computational efficiency.

COURSES ATTENDED

Courses attended at Indian Institute Of Technology Palakkad

- Computational Complexity (CS5616)
- Advanced Computational Complexity (CS6601)
- Computational Algebra and Number Theory (CS5634)
- Communication Complexity (CS5647)
- Graph Theory and Combinatorics (CS5010)
- Probabilistic Method (CS6003)
- Linear Algebra (MA5001)
- Topics in Discrete Mathematics (CS5013)
- Probability and Computing (CS5820)
- Algorithms for Big Data (CS5654)

TEACHING EXPERIENCE

Teaching Assistant, Indian Institute of Technology Palakkad

- Theory of Computation (CS5017 / CS3050)
- Computational Complexity (CS5616)
- Communication Complexity (CS5647)
- Discrete Mathematics (CS2020A)
- Introduction to Programming (ID1110)

CONFERENCES AND WORKSHOPS ATTENDED

- **Advances in Modern Complexity Theory (Complexity Theory Update Meeting)**, 2026
- **FSTTCS** (Foundations of Software Technology and Theoretical Computer Science), 2022–2025
- **Milestones and Motifs in the Theory of Proofs, Algebraic Computation, and Lower Bounds**, FSTTCS 2024
- **Recent Trends in Algorithms**, 2023–2024
- **SAT+SMT School**, FSTTCS 2023
- **Spectral Methods in Algorithms**, FSTTCS 2023
